DataClarity Establishes EMEA HQ in Dublin

Business Analytics Software Company to create 30 jobs over three years

Dublin 15th June 2015 – DataClarity Corporation, a leader in business analytics software, consulting, and education services is to establish an EMEA HQ in Dublin with plans to create an initial 30 jobs over the next three years. Recruitment for the new roles is already underway with a range of Management, Business Development, IT, Services and Research & Development roles available.

The investment underlines DataClarity's commitment to meeting the needs of its growing client base in Europe who require a trusted partner to deliver proven performance management software, consulting, and education services.

"I am delighted to formally announce our continued global expansion with the opening of our new Irish-based EMEA HQ," said Mark Mueller, Managing Partner at DataClarity. "At DataClarity, our philosophy embodies lifetime client relationships and our new EMEA Headquarters will enable us to best serve our existing and new European customers and drive the overall growth of our global business".

The company was introduced to Ireland through ConnectIreland, the company responsible for delivering the Government's Succeed in Ireland initiative, as part of the Action Plan for Jobs, in association with IDA Ireland.

Michael McLoughlin, CEO ConnectIreland, said: "It is great that DataClarity sees the value in expanding their operations to Ireland. We are delighted to have played a part in bringing such an exciting project to Dublin and we wish them all the best in the future".
